## Top Skills

Agentic AI Development  
Python (Programming Language)  
React.js

## Certifications

Google Cybersecurity Specialization  
DataCamp: Deploying AI into  
Production with FastAPI  
DataCamp: Introduction to FastAPI

# Ajijolaoluwa Adesoji

Flutter & React Developer | AI Engineer (Python, LangChain, RAG) |  
FastAPI & Firebase | Building Secure, Intelligent Apps  
Nigeria

## Summary

I am a Software Engineer with over 3 years of experience bridging the gap between cross-platform development and Artificial Intelligence. While my foundation is in mobile engineering (Flutter/Dart), I have expanded to building full-stack, AI-powered solutions using React, Python, and FastAPI.

My recent work focuses on developing intelligent applications, including Retrieval-Augmented Generation (RAG) systems and conversational agents using LangChain and LangGraph. I have practical experience integrating vector databases like ChromaDB and deploying scalable backends. Beyond coding, I have contributed to the AI ecosystem as a Data Annotator and AI Trainer, ensuring high-quality datasets for African-centric models.

I am passionate about creating software that preserves culture and enhances education: from building language preservation platforms to developing academic chatbots. I combine a security-first mindset with clean architecture to deliver products that are not just smart, but secure and scalable.

Tech Stack: Mobile & Web: Flutter · Dart · React · JavaScript ·  
HTML/CSS AI & Data: Python · LangChain · LangGraph · RAG  
Pipelines · ChromaDB · LLM Integration Backend & Tools: FastAPI ·  
Firebase · REST APIs · Git · Cybersecurity Fundamentals

---

## Experience

Awarri  
Data Annotator  
December 2025 - January 2026 (2 months)  
Abeokuta, Ogun State, Nigeria

AI Fellowship

AI Developer

August 2025 - January 2026 (6 months)

Abeokuta, Ogun State, Nigeria

---

## Education

Obafemi Awolowo University

Bsc, Statistics · (2019 - 2023)
